

Refit by **HUTTING**
— YACHTS —

We would like to introduce you to the versatility of Hutting Yachts. We are known for the construction of new Hutting yachts, but also in the field of refitting, Hutting Yacht is able to provide excellent quality.

Our versatility and the custom-built nature ensure that your ship can be fully overhauled, from hull to interior and from mast to engine. All within one shipyard and in accordance with Hutting Yachts' high quality requirements.

In this way we are able to ensure that your ship will leave the shipyard as if it were 'brand new'.

Tjerk Hutting & Crew

TEAK

If properly maintained, a teak deck exudes class and quality and provides excellent insulation for your ships. After many years of use, your teak deck will have to be replaced. Hutting Yachts has more than 40 years of experience in laying teak decks, as a result of which we now regard it as one of our specialist services.

YACHT PAINTING

We have a 27 meter long spray booth and are able to supply in accordance with COT standards. Combined with our passion for perfection, this will ensure that your yacht will re-enter the water with a deep gloss. It is also possible to repaint the interior.

RIGGING

Your yacht's rigging must be in excellent condition for safe usage and optimum performance. We have the know-how and expert staff to provide your yacht with the correct rigging, based on your requirements and style of sailing.

“KEEP UP THE GOOD WORK ON IMPROVING THE FINEST DREAMS A MAN CAN MAKE IN A LIFETIME.”
